MasterTop®
High Performance Floor Levelling Solutions
Master Builders Solutions from BASF

The Master Builders Solutions brand brings all of BASF’s expertise together to create chemical solutions for new construction, maintenance, repair and renovation of structures. Master Builders Solutions is built on the experience gained from more than a century in the construction industry.

The know-how and experience of a global community of BASF construction experts form the core of Master Builders Solutions. We combine the right elements from our portfolio to solve your specific construction challenges. We collaborate across areas of expertise and regions and draw on the experience gained from countless construction projects worldwide. We leverage global BASF technologies, as well as our in-depth knowledge of local building needs, to develop innovations that help make you more successful and drive sustainable construction.

The comprehensive portfolio under the Master Builders Solutions brand encompasses concrete admixtures, cement additives, chemical solutions for underground construction, waterproofing solutions, sealants, concrete repair & protection solutions, performance grouts, performance flooring solutions.

Floor Levelling

Master Builders Solutions has a complete range of floor levelling products for the floor coverings industry. Our range of MasterTop® high performance floor levelling products is the result of over 50 years of research and development.

The Master Builders Solutions floor levelling range is suitable for carpet, vinyl, tiles, parquetry and timber floors. The range also includes an overlay suitable for foot traffic, cars and other rubber-wheeled equipment.
MasterTop® Floor Levelling Range

MasterTop® 505 (formerly Mastertop P-5)
Fine finishing material for filling minor divots, smoothing out ridges and feather-edging. Rapid setting formulation allows for fast installation of floor coverings. Available in 4.5kg buckets.

MasterTop® 508 (formerly Mastertop P-8)
An economical self-levelling floor underlayment. Suitable for over poured insitu and precast concrete floors which will be covered by carpet.
Coverage: 1m² @ 11.5mm thick
Available in 20kg bags

MasterTop® 510 (formerly Mastertop P-10)
An economical self-levelling floor underlayment. Suitable for use under carpet, ceramic tiles and non-critical vinyl applications.
Coverage: 1m² @ 12mm thick.
Available in 20kg bags

MasterTop® 515 (formerly Mastertop P-15)
Premium quality self-levelling floor underlayment. Suitable for use under vinyl, parquetry, carpet and ceramic or natural stone tiles. It can be feather-edged or applied to a maximum thickness of 30mm.
Coverage: 1m² @ 12mm thick.
Available in 20kg bags

MasterTop® 515 (formerly Mastertop P-15)
Premium quality self-levelling floor underlayment. Suitable for use under vinyl, parquetry, carpet and ceramic or natural stone tiles. It can be feather-edged or applied to a maximum thickness of 30mm.
Coverage: 1m² @ 12mm thick.
Available in 20kg bags

MasterTop® 530 (formerly Mastertop P-30)
An economical self-smoothing floor underlayment. Ideal for use on floor areas that require bulk filling prior to the application of MasterTop® 515. It may also be used to create falls to floor wastes or drains. Ready for floor leveller in 3 hours.
Coverage: 1m² @ 10mm thick.
Available in 20kg bags

MasterTop® 540
An economical self-levelling, cementitious, non-structural floor overlay intended for use on poured insitu concrete floors. MasterTop® 540 has been specifically formulated to achieve a fast-setting, level surface suitable for foot traffic, rubber-wheeled equipment and occasional car usage.
Coverage: 1m² @ 12mm thick.
Available in 20kg bags

MasterTop® 545 (formerly Mastertop P-45)
Rapid-setting, non-sagging material for creating ramps, patching, filling holes or penetrations prior to the application of MasterTop® 510 or MasterTop® 515. Ready for foot traffic in 45 minutes.
Coverage: 1m² @ 12.5mm thick.
Available in 20kg bags

MasterTop® 1116
Water-based epoxy primer/moisture barrier. Used as a primer when applying a levelling compound over non-porous substrates such as tiles or terrazzo. Used as a moisture barrier over new or damp concrete.
Coverage: 4m² per litre.
Available in 20 litre kits

MasterTop® 1600 (formerly Mastertop P Primer)
General purpose acrylic primer for bonding of floor levellers to porous substrates. It also acts as a pore sealer to prevent air bubbles from rising through the applied leveller. MasterTop® 1600 can be diluted up to 1:3 by volume with water.
Available in 5 litre or 20 litre containers.
Master Builders Solutions from BASF for the Construction Industry

**MasterAir**
Complete solutions for air entrained concrete

**MasterBrace**
Solutions for concrete strengthening

**Mastercast**
Solutions for the manufactured concrete product industry

**MasterCem**
Solutions for cement manufacture

**MasterEmaco**
Solutions for concrete repair

**MasterFinish**
Solutions for formwork treatment

**MasterFlow**
Solutions for precision grouting

**MasterFiber**
Comprehensive solutions for fibre reinforced concrete

**MasterGlenium**
Solutions for hyperplasticised concrete

**MasterInject**
Solutions for concrete injection

**MasterKure**
Solutions for concrete curing

**MasterLife**
Solutions for enhanced durability

**MasterMatrix**
Advanced rheology control solutions for self-consolidating concrete

**MasterPel**
Solutions for water tight concrete

**MasterPolyheed**
Solutions for high performance concrete

**MasterPozzolith**
Solutions for water-reduced concrete

**MasterProtect**
Solutions for concrete protection

**MasterRheobuild**
Solutions for superplasticised concrete

**MasterRoc**
Solutions for underground construction

**MasterSeal**
Solutions for waterproofing and sealing

**MasterSet**
Solutions for retardation control

**MasterSure**
Solutions for workability control

**MasterTop**
Solutions for industrial and commercial floors

**Master X-Seed**
Advanced accelerator solutions for pre-cast concrete

**Ucrete**
Flooring solutions for harsh environments
