con	containment and cleaning up		Keep in suitable, closed containers for disposal.		
SECTIO	N 7. HANDLING AND ST	OR	AGE		
	Advice on protection against fire and explosion		No special precautions necessary.		
Adv	Advice on safe handling		 Avoid dust formation. Avoid inhalation of dusts. Avoid contact with skin and eyes. The Cement contained in this product reacts alkaline when contact with water or humidity. This may cause severe irritt tion of skin or mucous membranes. The humidity of the ski mucous membranes is enough for this reaction. Prolonged direct contact to the dry product should be avoided therefor Pour downwind and allow as little free fall as possible while emptying bags into equipment. Breathing must be protected when large quantities are decanted without local exhaust ventilation. 		
Нус	Hygiene measures		 When using, do not eat, drink or smoke. Hands and/or face should be washed before breaks and end of the shift. At the end of the shift the skin should be cleaned and ski care agents applied. Gloves must be inspected regularly and prior to each use Replace if necessary (e.g. pinhole leaks). Remove contaminated clothing immediately and clean be re-use or dispose it if necessary. 		
	ther information on stor- conditions	:	Containers shoul	d be stored tightly sealed in a dry place.
