1. Substance/preparation and manufacturer/supplier identification

**MasterRoc TSL 865 V1**

Use: Product for construction chemicals

**Manufacturer/supplier:**
BASF Australia Limited (ABN 62 008 437 867)
Level 12, 28 Freshwater Place Southbank
Victoria 3006, AUSTRALIA
Telephone: +61 3 8855-6600
Telefax number: +61 3 8855-6511

**Emergency information:**
BASF Emergency Advice Number: 1800 803 440 (24h) [within Australia]
BASF Emergency Advice Number: + 61 3 8855 6666 [outside Australia]

2. Hazard identification

Classification of the substance and mixture:
Skin corrosion/irritation: Cat. 2
Serious eye damage/eye irritation: Cat. 1

Label elements and precautionary statement:

**Pictogram:**

![Pictogram](image)

**Signal Word:**
Danger
Hazard Statement:
H318 Causes serious eye damage.
H315 Causes skin irritation.

Precautionary Statements (Prevention):
P280 Wear protective gloves and eye/face protection.
P264 Wash with plenty of water and soap thoroughly after handling.

Precautionary Statements (Response):
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P303 + P352 IF ON SKIN (or hair): Wash with plenty of soap and water.
P362 + P364 Take off contaminated clothing and wash it before reuse.

Other hazards which do not result in classification:
If applicable information is provided in this section on other hazards which do not result in classification but which may contribute to the overall hazards of the substance or mixture.

3. Composition/information on ingredients

Chemical nature
Preparation based on: Polymer, inorganic compounds

Hazardous ingredients

Calcium oxide
Content (W/W): \( \geq 15\% < 20\% \)
CAS Number: 1305-78-8
Skin Corr./Irrit.: Cat. 2
Eye Dam./Irrit.: Cat. 1
STOT SE: Cat. 3 (irr. to respiratory syst.)

4. First-Aid Measures

General advice:
First aid personnel should pay attention to their own safety. Immediately remove contaminated clothing.

If inhaled:
Keep patient calm, remove to fresh air. If symptoms persist, seek medical advice.

On skin contact:
After contact with skin, wash immediately with plenty of water and soap. Under no circumstances should organic solvent be used. If irritation develops, seek medical attention.

On contact with eyes:
Wash affected eyes for at least 15 minutes under running water with eyelids held open, consult an eye specialist.

On ingestion:
Rinse mouth immediately and then drink plenty of water, seek medical attention. Do not induce vomiting unless told to by a poison control center or doctor.
5. Fire-Fighting Measures

Suitable extinguishing media:
| foam, water spray, dry powder, carbon dioxide |

Unsuitable extinguishing media for safety reasons:
| water jet |

Specific hazards:
| carbon dioxide, carbon monoxide, harmful vapours, nitrogen oxides, fumes/smoke, carbon black |

Special protective equipment:
| Wear a self-contained breathing apparatus. |

Further information:
| The degree of risk is governed by the burning substance and the fire conditions. If exposed to fire, keep containers cool by spraying with water. Collect contaminated extinguishing water separately, do not allow to reach sewage or effluent systems. Contaminated extinguishing water must be disposed of in accordance with official regulations. |

6. Accidental Release Measures

Personal precautions:
| Avoid breathing dust/fume/gas/mist/vapours/spray. Wear eye/face protection. Use personal protective clothing. Handle in accordance with good building materials hygiene and safety practice. |

Environmental precautions:
| Contain contaminated water/firefighting water. Do not discharge into drains/surface waters/groundwater. |

Methods for cleaning up or taking up:
| For small amounts: Pick up with suitable appliance and dispose of. Dispose of absorbed material in accordance with regulations. |
| For large amounts: Pick up with suitable appliance and dispose of. Dispose of absorbed material in accordance with regulations. |

7. Handling and Storage

Handling:
| Avoid inhalation of dusts/mists/vapours. Avoid skin contact. Ensure adequate ventilation. No special measures necessary provided product is used correctly. |
Protection against fire and explosion:
The product is neither self-ignitable, nor an explosion hazard, nor does it promote fires.

Storage
Further information on storage conditions: Keep only in the original container in a cool, dry, well-ventilated place away from ignition sources, heat or flame. Protect from direct sunlight.

Storage stability:
Storage temperature: 5 - 55 °C

8. Exposure controls and personal protection

Components with occupational exposure limits

calcium oxide, 1305-78-8;
- TWA value 2 mg/m3 (ACGIHTLV)
- TWA value 2 mg/m3 (AU NOEL)
- TWA value 2 mg/m3 (OEL (AU))

Limestone, 1317-65-3;
- TWA value 10 mg/m3 (OEL (AU)), Inhalable dust

Calcium sulphate, 7778-18-9;
- TWA value 10 mg/m3 (ACGIHTLV), Inhalable fraction
- TWA value 10 mg/m3 (AU NOEL), Inhalable dust
  This value is for inhalable dust containing no asbestos and < 1% crystalline silica.
- TWA value 10 mg/m3 (OEL (AU)), Inhalable dust

Personal protective equipment

Respiratory protection:
Wear respiratory protection if ventilation is inadequate. Combination filter for gases/vapours of organic, inorganic, acid inorganic and alkaline compounds (e.g. EN 14387 Type ABEK).

Hand protection:
- impermeable gloves
- Synthetic rubber gloves
  Manufacturer’s directions for use should be observed because of great diversity of types.

Eye protection:
- Safety glasses with side-shields (frame goggles) (e.g. EN 166)

Body protection:
Body protection must be chosen based on level of activity and exposure.

General safety and hygiene measures:
Do not inhale dust/fumes/aerosols. Avoid contact with the skin, eyes and clothing. Avoid exposure - obtain special instructions before use. Handle in accordance with good building materials hygiene and safety practice. Wearing of closed work clothing is recommended. When using, do not eat, drink
or smoke. Hands and/or face should be washed before breaks and at the end of the shift. At the end of the shift the skin should be cleaned and skin-care agents applied. Gloves must be inspected regularly and prior to each use. Replace if necessary (e.g. pinhole leaks). When using do not eat or drink.

9. Physical and Chemical Properties

Form: fine powder
Colour: grey white to yellowish
Odour: mild
Odour threshold: No applicable information available.

pH value: 11
(25 °C)

Boiling point: not applicable

Flash point: not available

Flammability (solid/gas): not flammable

Thermal decomposition: No decomposition if stored and handled as prescribed/indicated.
Self ignition: not self-igniting
Self heating ability: It is not a substance capable of spontaneous heating.

Fire promoting properties: not fire-propagating

Vapour pressure: (20 °C)
not applicable

Density: 0.85 g/cm³
(20 °C)

Bulk density: 690 kg/m³
(25 °C)

Solubility in water: partly soluble
Miscibility with water: (20 °C)
immiscible

Hygroscopy: hygroscopic

Partitioning coefficient n-octanol/water (log Pow): not applicable for mixtures

Viscosity, dynamic: not applicable
10. Stability and Reactivity

Conditions to avoid:
Avoid moisture. Avoid humidity.

Thermal decomposition: No decomposition if stored and handled as prescribed/indicated.

Substances to avoid:
Atmospheric moisture

Corrosion to metals: No corrosive effect on metal.

Hazardous reactions:
The product is stable if stored and handled as prescribed/indicated.
No hazardous decomposition products if stored and handled as prescribed/indicated.

11. Toxicological Information

Acute toxicity
Assessment of acute toxicity:
Virtually nontoxic after a single ingestion. Virtually nontoxic by inhalation. Virtually nontoxic after a single skin contact. Based on available Data, the classification criteria are not met.

Irritation
Assessment of irritating effects:
Skin contact causes irritation. May cause severe damage to the eyes.

Respiratory/Skin sensitization
Assessment of sensitization:
Based on the ingredients, there is no suspicion of a skin-sensitizing potential. Based on available Data, the classification criteria are not met.

Germ cell mutagenicity
Assessment of mutagenicity:
The chemical structure does not suggest a specific alert for such an effect. Based on available Data, the classification criteria are not met.

Carcinogenicity
Assessment of carcinogenicity:
The chemical structure does not suggest a specific alert for such an effect. Based on available Data, the classification criteria are not met.

**Reproductive toxicity**

Assessment of reproduction toxicity:

The chemical structure does not suggest a specific alert for such an effect. Based on available Data, the classification criteria are not met.

**Developmental toxicity**

Assessment of teratogenicity:

The chemical structure does not suggest a specific alert for such an effect. Based on available Data, the classification criteria are not met.

**Specific target organ toxicity (single exposure):**

Assessment of STOT single:

Based on available Data, the classification criteria are not met.

**Repeated dose toxicity and Specific target organ toxicity (repeated exposure)**

Assessment of repeated dose toxicity:

No reliable data was available concerning repeated dose toxicity. Based on available Data, the classification criteria are not met.

**Aspiration hazard**

No aspiration hazard expected.

**Other relevant toxicity information**

Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses. The product has not been tested. The statements on toxicology have been derived from the properties of the individual components.

12. Ecological Information

**Ecotoxicity**

Assessment of aquatic toxicity:

Based on available Data, the classification criteria are not met. There is a high probability that the product is not acutely harmful to aquatic organisms.

**Mobility**

Assessment transport between environmental compartments:

No data available.
Persistence and degradability

Assessment biodegradation and elimination (H2O):
- Not readily biodegradable (by OECD criteria).

Bioaccumulation potential

Assessment bioaccumulation potential:
- Discharge into the environment must be avoided.

Additional information

Other ecotoxicological advice:
- Do not discharge product into the environment without control. The product has not been tested. The statements on ecotoxicology have been derived from the properties of the individual components.

13. Disposal Considerations

Observe national and local legal requirements.
The waste code in accordance with the European waste catalog (EWC) must be specified in cooperation with disposal agency/manufacturer/authorities.
Residues should be disposed of in the same manner as the substance/product.

Contaminated packaging:
- Contaminated packaging should be emptied as far as possible; then it can be passed on for recycling after being thoroughly cleaned.
- Packs that cannot be cleaned should be disposed of in the same manner as the contents.

14. Transport Information

Domestic transport:
- Not classified as a dangerous good under transport regulations

Sea transport
IMDG
- Not classified as a dangerous good under transport regulations

Air transport
IATA/ICAO
- Not classified as a dangerous good under transport regulations

15. Regulatory Information
Other regulations

If other regulatory information applies that is not already provided elsewhere in this safety data sheet, then it is described in this subsection.

Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP): Not Scheduled

Registration status:

AICS, AU released / listed

16. Other Information

Vertical lines in the left hand margin indicate an amendment from the previous version.

The data contained in this safety data sheet are based on our current knowledge and experience and describe the product only with regard to safety requirements. This safety data sheet is neither a Certificate of Analysis (CoA) nor technical data sheet and shall not be mistaken for a specification agreement. Identified uses in this safety data sheet do neither represent an agreement on the corresponding contractual quality of the substance/mixture nor a contractually designated use. It is the responsibility of the recipient of the product to ensure any proprietary rights and existing laws and legislation are observed.
