Ahmed Gunter

## Faragallah Food and Beverage

### The background

Faragallah is one of the market leader of food and beverage sector located in Alexandria, the customer has more than five factories working in different food and beverage sector and he is expanding to build new factories. They planned to change all their existing epoxy floor with Ucrete to can support the wet and high chemicals environment exposed to floor

### The challenge

- Very tough environment, totally wet, heavy traffic regarding the fork left and the steel pallets that they used in this industry.
- Very hygienic environment to meet the health and safety company precaution as they are the highest standard company in Egypt at this business.

## Project profile: Heavy Duty flooring systems

### Our solution

A heavy duty polyurethane system that is hygiene and can resist the traffic

We offered the whole system including the sealant and the coving

### Customers Benefit

The customer was very satisfied from our solution, more than five years we are working together to apply Ucrete instead of epoxy in all factories

### Project facts at a glance:

- Very taught high resistance traffic and
- Totally hygiene.
- Good looking floor
- Long lasting one.
