Hyundai Workshop Ismailia road

The market leader car producer in Egypt building a big workshop in Ismailia road.

The background

This project is a big project that Hyundai was building as a main Workshop in Cairo to serve a big area from Cairo and Ismailia.

They weren't working with Master Builder Solutions before with another competitor.

We convinced the consultant to approve us also.

The challenge

- Durability and resistance to aggressive chemicals, heavy impact and thermal shock.
- A special Color for Hyundai a green one
- A long period in application and the project stopped for 6 months.
- Coving was needed between the floor and insulation panel walls.
- Joints were needed all around gratings.

The Biggest workshop in Egypt.

Our solution

We entered the job with one of our best applicators Xervon they have a very good experience. We used the Shotblast machine for grinding the substrate weren't in a perfect condition. They asked for a smooth floor and easy to be clean the MasterTop 1230 was the solution.

Customers Benefit

The Client was satisfied with the performance of Master Builder Solutions products, the implementation and follows up and especially with the color.

The applicator was doing well.

Some areas we used the MasterTop 1205 also green for cost reduction as these areas weren't subjected to heavy loads.

Project facts at a glance:

- Fast, expert installation
- Monolithic - minimizes joints
- Easy to clean

- safe
- High mechanical strength
- Impact and abrasion resistant
- Good chemical resistance
- Non tainting
