MasterTop 1230

The background

MARS are one of the Biggest Multinational companies in Egypt.

They are building a huge factory with a total area 16000 sqm.

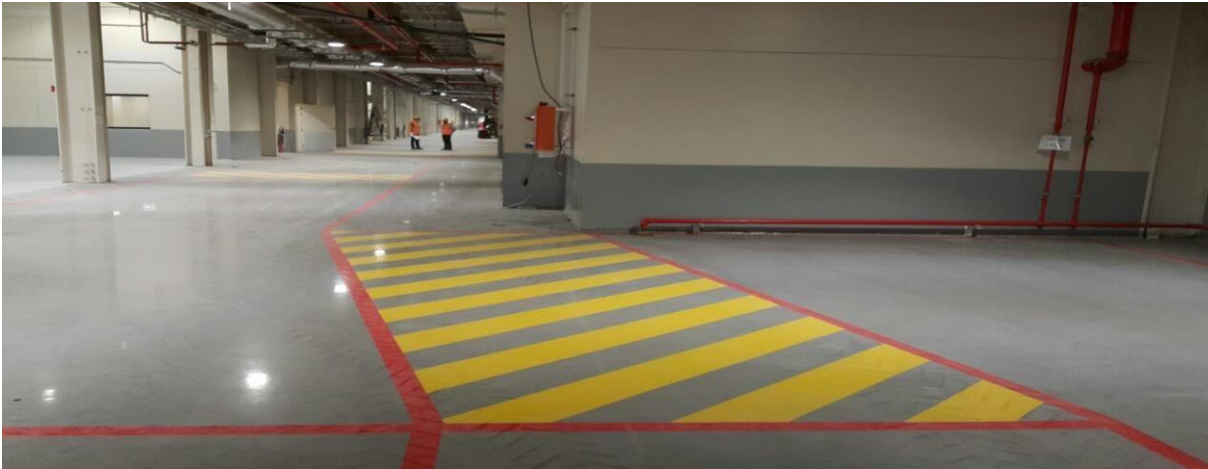

They asked for a seamless floor easy to be clean and Hygiene.

The challenge

- The customer need to apply the floor very fast he has a very tight schedule.
- He need to apply special system not to maintain for a long period.
- The biggest problem was the LEED and the VOC issue the consultant didn't approve us as our product VOC is not according to the LEED recommendation..

MARS Chocolate Factory

Our solution

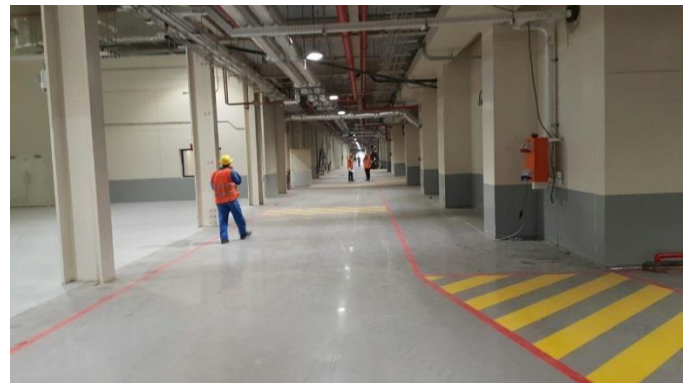

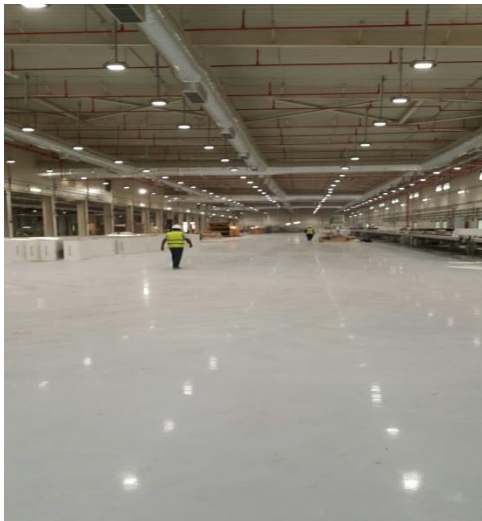

Master Builders Solutions Construction Chemicals tried a lot with the consultant and we set several meetings to convince them that all our epoxies are according to LEED.

At the end the owner himself approved us and other competitor which his prices are very low than us.

Orascom the main contractor helped us a lot and they finished that issue with the owner and went with our nominated applicator XERVON.

Customers Benefit

A very good floor with a very good applicator the client was very happy and satisfied.

Project facts at a glance:

- Fast application
- Easy to clean and slip resistance
- Heavy Duty
- Non Tainting
- Long lasting

Master Builders Solutions by MBCC Group
