## Kanes Foods, Evesham

### Flooring solution for a new build fresh food factory

Our reference in Evesham (United Kingdom): Kanes Foods

#### The background

Kanes Foods are a leading fresh food manufacturer, priding themselves on providing outstanding, quality produce to the UK market from their £30 million eco factory in Evesham. Their engineers have had a long relationship with Ucrete, and the high-quality product has provided them with many years of dependable low maintenance service. Ucrete was, and remains a trusted partner for Kanes Foods and the wider food and beverage industry.

#### The challenge

Kanes Foods required a number of functional and durable finishes that also fitted the look of their modern, sleek new build eco factory. Keeping the ergonomic requirements of their staff in mind, they also wanted a more comfortable, aesthetic finish for communal areas, such as changing rooms and corridors, whilst keeping an industrial, hard wearing, resilient floor in their factories that would take wear, regular cleaning and traffic.

## Flooring solution for a new build fresh food factory

Our reference in Evesham (United Kingdom): Kanes Foods

### Our solution

To provide the best environment for both food processing and non-processing areas, two different flooring types were chosen.

Ucrete UD200 was specified for the food processing areas. Ucrete UD200 is ideally suited to these areas as it is slip resistant, very hard wearing and as cleanable as stainless steel, vital for high care food processing plants like Kanes Foods.

MasterTop 1325 was specified for the communal areas. MasterTop 1325 was chosen due to its enhanced ergonomics, decorative hard wearing and easy to clean finish. It was ideally suited for foot traffic, and coupled with its be crack-bridging properties allowed seamless application to new build areas.

### The customer's benefit

- Ucrete system ideal for food processing environments in terms of both food and personnel safety
- High slip resistance and ease of cleaning maintained throughout
- Rapid installation due to competent, licensed contractors
- HACCP certified products used
- Trusted brand materials, with full technical after-sales support available
- MasterTop 1325 provides a comfortable, aesthetic finish for communal areas

### Projects facts at a glance

- Multimillion pound new build eco factory for salad and fresh produce processing
- New flooring system required for whole new build project, including comfort floors for changing rooms and corridors, and industrial flooring for processing areas.
- Both floors required to be long lasting, durable and appropriate for their environment, Ucrete to be slip resistant, highly chemical resistant and hygienic throughout its life, MasterTop to be durable, comfortable underfoot and easily cleanable

### Master Builders Solutions by MBCC Group

The Master Builders Solutions brand expresses MBCC Group's expertise in providing customized chemical solutions for new construction, maintenance, repair and restoration of structures.

Master Builders Solutions is built on the experience gained from more than a century in the construction industry. At the core of the Master Builders Solutions brand is the combined know-how and experience of a global community of construction experts, who connect with you to solve all of your construction challenges.
