Third Saudi Expansion of The Holy Haram
Makkah & Surrounding Areas, Expansion Building, Piazza & Mataf

The background

The largest expansion for Holy Makkah Haram, project started in 2010, and expected to finish in 2020, it designed to have capacity of million Prayers.

Concrete quantity poured more than two million cubic meters.

This project can be considered as the largest project worldwide based on budget (200 billion Saudi Riyal up to date) and capacity which designed to accommodate by 1 million prayer in the same time with all required utilities and facilities.

The challenge

- Limited Time frame during the year due to Hajj and Ramadan Seasons.
- Project Requirements- High performance concrete and finishing.
- Geographic and environment challenge in Makkah.
- Design & build project.

Our solution

- High performance admixtures & MasterGlenium range (MasterGlenium Sky 504S, MasterGlenium SKY 506, MasterRheobuild 858M & MasterPozzolith RMC4M) due to the requirements of the project (High flowability and pumpability of concrete, in addition to the high compressive strength concrete).
- Specify & supply along with the designer and our applicator partners over there the full waterproofing system for Basement, sub-basement, ground floor, wet areas & roofs using most of our cementitious, polyurethane & TPO systems.
- Using our WABO Expansion Joints which can be considered as iconic job reference for BASF globally.
- We supply the whole flooring and protection systems for Basement and Sub basement by using Epoxy and Polyurethane systems.

The customer’s benefit

- An on-site technical assistance and training were provided to ensure the proper application of the proposed systems.
- High performance systems which meet the consultant, contractor and client requirements.
- Work closely with designers as one team to specify the required systems & solutions as per project requirements.
- Swift reply and supply to all urgent calls & requests which is essential in such mega and rush project.

Projects facts at a glance

- Largest project worldwide in last 10 years.
- Highest project Budgets, 200 Billion SR up to date.
- Over 250 million SR sales of BASF products.
- We have more than 55 products approved till to date which represent most of our systems in Saudi BASF.

Master Builders Solutions from BASF

The Master Builders Solutions brand expresses BASF’s expertise in providing customized chemical solutions for new construction, maintenance, repair and restoration of structures.

Master Builders Solutions is built on the experience gained from more than a century in the construction industry. At the core of the Master Builders Solutions brand is the combined know-how and experience of a global community of BASF construction experts, who connect with you to solve all your construction challenges.
