MasterTop® 120SR
Slip-resistant hard aggregate for concrete floors and pavement surfaces

Formerly FRICTEX® NS

DESCRIPTION
MasterTop 120SR is a 95% aluminum oxide aggregate that is a slip-resistant hard-aggregate surfacer for concrete floors and pavement.

PRODUCT HIGHLIGHTS
- Excellent wear, abrasion, and impact resistance ensures longer surface life
- Rustproof, noncorrosive formulation is ideal for wet and damp areas
- Forms an excellent bond with cement paste in concrete to become an integral part of the floor
- Slip resistance improves safety in wet areas
- Resistant to many harsh cleaners improving ease of cleaning

APPLICATIONS
- Dry-shake application and embedment in fresh concrete
- Concrete floors, platforms, decks, ramps, stairs, walkways, halls, plazas
- Dairies, meat and food processing facilities, industrial buildings, garages, warehouses, hangars, and shopping centers

HOW TO APPLY
APPLICATION
1. Soak MasterTop 120SR aggregate in potable water for 10 minutes and allow to drain to prevent excessive absorption of mixing water by aggregate. Use a minimum of 0.25 lbs of aggregate per ft² (1.23 kg/m²).
2. After concrete has been placed, screeded, and leveled, it must be allowed to set until it can bear the weight of workmen on boards. Then sprinkle MasterTop 120SR uniformly over surface in 1 application.
3. Immediately float aggregate into concrete and float to desired finish.

LOCATIONS
- Interior and exterior

YIELD
Use a minimum of 0.25 lbs/ft² (1.23 kg/m²).

PACKAGING
50 lb (22.68 kg) bags

COLOR
Dark gray

SHELF LIFE
2 years when properly stored

STORAGE
Store in a clean, dry place

VOC CONTENT
0 g/L less water and exempt solvents

CURING
MasterTop 120SR-treated floors may be water, sheet, or membrane cured. When no other surface treatments are required, use an appropriate curing compound. When anticipating the use of MasterKure HD 300 WB, use water or sheet curing only.

FOR BEST PERFORMANCE
- To prevent excessive dusting, MasterTop 120SR treated floors may be treated MasterKure HD 300 WB.
- The use of a wooden bullfloat will optimize the opening of the slab surface.
- Make certain the most current versions of product data sheet and SDS are being used; visit www.master-builders-solutions.basf.us to verify the most current versions.
- Proper application is the responsibility of the user. Field visits by BASF personnel are for the purpose of making technical recommendations only and not for supervising or providing quality control on the jobsite.

HEALTH, SAFETY AND ENVIRONMENTAL
Health, Safety and Environmental Read, understand and follow all Safety Data Sheets and product label information for this product prior to use. The SDS can be obtained by visiting www.master-builders-solutions.basf.us, e-mailing your request to basfbsct@basf.com or calling 1(800)433-9517. Use only as directed. For medical emergencies only, call ChemTrec 1(800)424-9300.

LIMITED WARRANTY NOTICE
Every reasonable effort is made to apply BASF exacting standards both in the manufacture of our products and in the information which we issue concerning these products and their use. We warrant our products to be of good quality and will replace or, at our election, refund the purchase price of any products proved defective. Satisfactory results depend not only upon quality products, but also upon many factors beyond our control. Therefore, except for such replacement or refund, BASF MAKES NO WARRANTY OR GUARANTEE, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE OR MERCHANTABILITY, RESPECTING ITS PRODUCTS, and BASF shall have no other liability with respect thereto. Any claim regarding product defect must be received in writing within one (1) year from the date of shipment. No claim will be considered without such written notice or after the specified time interval. User shall determine the suitability of the products for the intended use and assume all risks and liability in connection therewith. Any authorized change in the printed recommendations concerning the use of our products must bear the signature of the BASF Technical Manager.

This information and all further technical advice are based on BASF’s present knowledge and experience.
