Engineering measures: Ensure adequate ventilation.

Personal protective equipment:
Respiratory protection: Wear appropriate certified respirator when exposure limits may be exceeded. Use NIOSH approved respiratory protection.
Hand protection: Remarks: Wear chemical resistant protective gloves. Manufacturer's directions for use should be observed because of great diversity of types.
Eye protection: Tightly fitting safety goggles (chemical goggles) and face shield.
Skin and body protection: Body protection must be chosen depending on activity and possible exposure, e.g. head protection, apron, protective boots, chemical-protection suit.
Protective measures: Do not inhale gases/vapours/aerosols. Avoid contact with the skin, eyes and clothing. Handle in accordance with good building materials hygiene and safety practice.
Hygiene measures: When using, do not eat, drink or smoke. Hands and/or face should be washed before breaks and at the end of the shift. At the end of the shift the skin should be cleaned and skin-care agents applied. Gloves must be inspected regularly and prior to each use. Replace if necessary (e.g. pinhole leaks).
