SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media
Foam
Water spray
Dry powder
Carbon dioxide (CO2)
Product itself is non-combustible. Only the packaging materials can catch fire. The extinguishing agents normally used are sufficient.
Unsuitable extinguishing media: water jet

Specific hazards during fire fighting: Product is not combustible or explosive. Exposure to decomposition products may be a hazard to health.

Hazardous combustion products: harmful vapours

Further information: Product itself is non-combustible; fire extinguishing method of surrounding areas must be considered. The degree of risk is governed by the burning substance and the fire conditions. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

Special protective equipment for fire-fighters: Wear self-contained breathing apparatus and chemical-protective clothing.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: Avoid dust formation. Avoid contact with skin and eyes. Use personal protective clothing. Handle in accordance with good building materials hygiene and safety practice.

Environmental precautions: Do not discharge into drains/surface waters/groundwater.

Methods and materials for containment and cleaning up: Sweep up and shovel into suitable containers for disposal. Avoid dust formation. Rinse with plenty of water. Keep in suitable, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion: No special precautions necessary.

Advice on safe handling: Avoid dust formation. Avoid inhalation of dusts. Avoid contact with skin and eyes. The Cement contained in this product reacts alkaline when in contact with water or humidity. This may cause severe irritation of skin or mucous membranes. The humidity of the skin or mucous membranes is enough for this reaction. Prolonged direct contact to the dry product should be avoided therefore. Pour downwind and allow as little free fall as possible while emptying bags into equipment. Breathing must be protected when large quantities are decanted without local exhaust ventilation.
Further information on storage conditions: Containers should be stored tightly sealed in a dry place.

Materials to avoid: No applicable information available.
