

# Selection and Maintenance of Line Striping Used With MasterSeal®

FORMERLY SELECTION AND MAINTENANCE OF LINE STRIPING USED WITH SONOGUARD

BASF Technical Support has no recommendation regarding the selection of a specific line striping coating for use with MasterSeal or MasterSeal Traffic deck coatings (short of suggesting the use of MasterSeal Topcoat Tint-Base tinted white/yellow etc).

In general, it can be said that various chlorinated rubber, alkyd & latex line stripings have been used with varying success. Those of a chlorinated-rubber variety have been reported as the most successful in gaining and maintaining adhesion (even so, a small test application is recommended to verify adhesion). Each application, however, will require reapplication on an annual/semi-annual basis depending on levels of traffic, as part of a routine maintenance program.
