**MasterTop® 1235 SL System (Formerly Selbaclad SL)
Product Information Statement for LEED® 2009 Credit Documentation**

MasterTop® 1235 SL is a self-leveling epoxy flooring system for interior.

The system is created using the following components:

- MasterTop® GP 500 Pt A
- MasterTop® GP 500 Pt B
- MasterTop® PGM 500

BASF Corporation certifies the following information for MasterTop® 1235 SL System:

Recycled Content

Recycled content of the MasterTop® 1235 SL System components is not available at this time.

VOC Content

MasterTop® 1235 SL System epoxy components all have a VOC (Volatile Organic Compound) content of 0 g/L.

Rapidly Renewable Materials

MasterTop® 1235 SL System component **MasterTop® GP 500 Pt A** contains **5.6%** by weight rapidly renewable material.

Based upon the above information, BASF Corporation certifies that the MasterTop® 1235 SL System could contribute to the following LEED Credits:

MR Credit 6: Rapidly Renewable Materials
EQ Credit 4.2: Low-Emitting Materials: Paints & Coatings
