MasterSeal® 583
Formerly Super Thoroseal®
Waterproof Cement-Based Coating for Concrete, Brick and Masonry

MasterSeal 583 is a dry polymer modified portland cement-based coating used for sealing and protecting concrete and masonry substrates against water, dampness and seepage with a long-lasting, semi-smooth decorative white finish.

FEATURES AND BENEFITS:
- Excellent adhesion, flexural strength, durability and freeze/thaw resistance
- Resistant to both positive and negative hydrostatic pressure
- Fills and seals pores and voids to correct surface irregularities.
- Resistant to mold and mildew
- Compatible with mineral or cement-based substrates
- Easy to use, just add water
- Easy clean-up with soap and water immediately after use.

Satisfactory results depend on selection of suitable product for intended use and compliance with instructions for surface preparation and application.
