1. PRODUCT AND COMPANY IDENTIFICATION

Product name : MasterLife 300D
Product code : 000000000050510341 000000000050510341

Manufacturer or supplier’s details
Company : SAUDI BASF FOR BUILDING MATERIALS CO. LTD
Address : Dammam 2nd Industrial Area AL Khobar 31952
Telephone : +966966138121140
Emergency telephone : ChemTel: +1-813-248-0585
Telefax : +966966138121822

Recommended use of the chemical and restrictions on use
Recommended use : Product for construction chemicals

2. HAZARDS IDENTIFICATION

GHS Classification
Skin corrosion/irritation : 2
Serious eye damage/eye irritation : 1
Specific target organ toxicity - single exposure : 3 (respiratory tract irritation)

GHS label elements
Hazard pictograms : 
Signal Word : Danger
Hazard Statements : H318 Causes serious eye damage.
H315 Causes skin irritation.
H335 May cause respiratory irritation.
Precautionary Statements : Prevention:
P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.
P261 Avoid breathing dust.
P264 Wash face, hands and any exposed skin thoroughly after handling.
Response:
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 Immediately call a POISON CENTER/doctor/
P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P303 + P352 IF ON SKIN (or hair): Wash with plenty of soap and water.
P332 + P313 If skin irritation occurs: Get medical advice/attention.
P362 + P364 Take off contaminated clothing and wash it before reuse.

Storage:
P403 + P233 Store in a well-ventilated place. Keep container tightly closed.
P405 Store locked up.

Disposal:
P501 Dispose of contents/container to appropriate hazardous waste collection point.

Other hazards which do not result in classification
If applicable information is provided in this section on other hazards which do not result in classification but which may contribute to the overall hazards of the substance or mixture.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical nature: modified cement mortar

4. FIRST AID MEASURES

General advice: First aid personnel should pay attention to their own safety. Remove contaminated clothing.

If inhaled: After inhalation of dust. Keep patient calm, remove to fresh air. If difficulties occur: Seek medical attention.

In case of skin contact: After contact with skin, wash immediately with plenty of water and soap. Under no circumstances should organic solvent be used. If irritation develops, seek medical attention.

In case of eye contact: Wash affected eyes for at least 15 minutes under running water with eyelids held open, consult an eye specialist.

If swallowed: Immediately rinse mouth and then drink 200-300 ml of water,
seek medical attention. Do not induce vomiting unless told to by a poison control center or doctor.

Most important symptoms and effects, both acute and delayed:
- Causes skin irritation.
- Causes serious eye damage.
- May cause respiratory irritation.

Notes to physician: Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media:
- Foam
- Water spray
- Dry powder
- Carbon dioxide (CO2)

Unsuitable extinguishing media:
- Water jet

Specific hazards during fire fighting:
- Product is not combustible or explosive.
- No particular hazards known.

Specific extinguishing methods:
- Product itself is non-combustible; fire extinguishing method of surrounding areas must be considered.
- The degree of risk is governed by the burning substance and the fire conditions.
- Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

Special protective equipment for fire-fighters:
- Wear a self-contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:
- Avoid dust formation.
- Avoid contact with skin and eyes.
- Use personal protective clothing.
- Handle in accordance with good building materials hygiene and safety practice.

Environmental precautions:
- Do not discharge into drains/surface waters/groundwater.

Methods and materials for containment and cleaning up:
- Sweep/shovel up.

7. HANDLING AND STORAGE

Advice on protection against fire and explosion:
- No special precautions necessary.

Advice on safe handling:
- Avoid dust formation.
- The Cement contained in this product reacts alkaline when in contact with water or humidity. This may cause severe irritation of skin or mucous membranes. The humidity of the skin or mucous membranes is enough for this reaction. Prolonged direct contact to the dry product should be avoided therefore.
- Avoid inhalation of dusts.
- Avoid skin contact.
- Pour downwind and allow as little free fall as possible while...
emptying bags into equipment. Breathing must be protected when large quantities are de-
canted without local exhaust ventilation.

Further information on stor-
age conditions : Containers should be stored tightly sealed in a dry place.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Personal protective equipment

Respiratory protection : Breathing protection if dusts are formed.
Filter type : Particle filter with medium efficiency for solid and liquid parti-
cles (e.g. EN 143 or 149, Type P2 or FFP2)

Hand protection

Remarks : nitrile coated cotton gloves (e.g. EN 388, 374)
Eye protection : Tightly fitting safety goggles (splash goggles) (e.g. EN 166)
Skin and body protection : Body protection must be chosen based on level of activity and
exposure.
light protective clothing

Protective measures : Avoid contact with the skin, eyes and clothing.
Avoid inhalation of dusts.
In order to prevent contamination while handling, closed work-
ing clothes and working gloves should be used.
Handle in accordance with good building materials hygiene
and safety practice.

Hygiene measures : When using, do not eat, drink or smoke.
Hands and/or face should be washed before breaks and at the
end of the shift.
At the end of the shift the skin should be cleaned and skin-
care agents applied.
Gloves must be inspected regularly and prior to each use.
Replace if necessary (e.g. pinhole leaks).
Remove contaminated clothing immediately and clean before
re-use or dispose it if necessary.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance : powder
Color : white to grey
Odor : characteristic
Odor Threshold : Not determined due to potential health hazard by inhalation.

pH : > 11 (20 °C)
Flash point : Study scientifically not justified.

Flammability (solid, gas) : not flammable
Self-ignition : not self-igniting
Upper explosion limit / Upper flammability limit: As a result of our experience with this product and our knowledge of its composition we do not expect any hazard as long as the product is used appropriately and in accordance with the intended use.

Lower explosion limit / Lower flammability limit: As a result of our experience with this product and our knowledge of its composition we do not expect any hazard as long as the product is used appropriately and in accordance with the intended use.

Bulk density: 1.500 - 2.000 kg/m³ (23 °C)

Solubility(ies):
Water solubility: insoluble

Decomposition temperature: No decomposition if stored and handled as prescribed/indicated.

Explosive properties: Not explosive

Oxidizing properties: not determined

Self-heating substances: No data available

Metal corrosion rate: No corrosive effect on metal.

10. STABILITY AND REACTIVITY

Reactivity: No hazardous reactions if stored and handled as prescribed/indicated.

Chemical stability: The product is stable if stored and handled as prescribed/indicated.

Possibility of hazardous reactions: The product is stable if stored and handled as prescribed/indicated.

Conditions to avoid:
Incompatible materials:
- Strong bases
- Strong acids

Hazardous decomposition products: No hazardous decomposition products if stored and handled as prescribed/indicated.

11. TOXICOLOGICAL INFORMATION

Acute toxicity: Not classified based on available information.

Skin corrosion/irritation: Causes skin irritation.

Serious eye damage/eye irritation: Causes serious eye damage.
Respiratory or skin sensitization

Skin sensitization
Not classified based on available information.

Respiratory sensitization
Not classified based on available information.

Product:
Remarks: Chromate in this product has been reduced. Sensitization due to chromate within stated shelf-live is unlikely.

Germ cell mutagenicity
Not classified based on available information.

Carcinogenicity
Not classified based on available information.

Reproductive toxicity
Not classified based on available information.

STOT-single exposure
May cause respiratory tract irritation.

STOT-repeated exposure
Not classified based on available information.

Aspiration toxicity
Not classified based on available information.

Further information

Product:
Remarks: Health injuries are not known or expected under normal use. The product has not been tested. The statements on toxicology have been derived from the properties of the individual components.

12. ECOLOGICAL INFORMATION

Ecotoxicity

Product:
Ecotoxicology Assessment
Acute aquatic toxicity: This product has no known ecotoxicological effects.

Chronic aquatic toxicity: This product has no known ecotoxicological effects.

Persistence and degradability

Product:
Biodegradability: Remarks: Not applicable for inorganic substances.
Bioaccumulative potential

**Product:**

Bioaccumulation: Remarks: The product will not be readily bioavailable due to its consistency and insolubility in water.

**Components:**

**Cement, portland, chemicals:**

Partition coefficient: n-octanol/water: GLP: no
Remarks: not applicable

**sodium carbonate:**

Partition coefficient: n-octanol/water: Remarks: The value has not been determined because the substance is inorganic.

**(+-)Tartaric acid:**

Partition coefficient: n-octanol/water: log Pow: -1.0 (25 °C)
Method: other (calculated)
GLP: no

Mobility in soil

**Product:**

Distribution among environmental compartments: Remarks: Following exposure to soil, adsorption to solid soil particles is probable, therefore contamination of groundwater is not expected. The substance will not evaporate into the atmosphere from the water surface.

Other adverse effects

**Product:**

Results of PBT and vPvB assessment: This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Additional ecological information: Do not discharge product into the environment without control. The product has not been tested. The statements on ecotoxicology have been derived from the properties of the individual components.

13. DISPOSAL CONSIDERATIONS

**Disposal methods**

- **Waste from residues:** Observe national and local legal requirements. Residues should be disposed of in the same manner as the substance/product.
- **Contaminated packaging:** Completely emptied packagings can be given for recycling.
14. TRANSPORT INFORMATION

International Regulations

UNRTDG
Not regulated as a dangerous good

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

If other regulatory information applies that is not already provided elsewhere in this safety data sheet, then it is described in this subsection.

16. OTHER INFORMATION
