1. PRODUCT AND COMPANY IDENTIFICATION

Product name : MasterLife 80P
Product code : 000000000050783052 000000000050783052

Manufacturer or supplier’s details
Company : SAUDI BASF FOR BUILDING MATERIALS CO. LTD
Address : Dammam 2nd Industrial Area AL Khobar 31952
Telephone : +966966138121140
Emergency telephone : ChemTel: +1-813-248-0585
Telefax : +966966138121822

Recommended use of the chemical and restrictions on use
Recommended use : Product for construction chemicals

2. HAZARDS IDENTIFICATION

GHS Classification
No need for classification according to GHS criteria for this product.

GHS label elements
The product does not require a hazard warning label in accordance with GHS criteria.

Other hazards which do not result in classification
If applicable information is provided in this section on other hazards which do not result in classification but which may contribute to the overall hazards of the substance or mixture.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical nature : inorganic compounds

Components
No particular hazards known.

4. FIRST AID MEASURES

General advice : First aid personnel should pay attention to their own safety. Immediately remove contaminated clothing.

If inhaled : After inhalation of dust. Keep patient calm, remove to fresh air, seek medical attention.

In case of skin contact : After contact with skin, wash immediately with plenty of water and soap.
Under no circumstances should organic solvent be used. If irritation develops, seek medical attention. If swallowed: Immediately rinse mouth and then drink 200-300 ml of water, seek medical attention. Do NOT induce vomiting.

In case of eye contact: Wash affected eyes for at least 15 minutes under running water with eyelids held open, consult an eye specialist.

Information, i.e. additional information on symptoms and effects may be included in the GHS labeling phrases available in Section 2 and in the Toxicological assessments available in Section 11.

Notes to physician: Treat according to symptoms (decontamination, vital functions), no known specific antidote.

**5. FIRE-FIGHTING MEASURES**

Suitable extinguishing media: Foam
Water spray
Dry powder
Carbon dioxide (CO2)

Unsuitable extinguishing media: water jet

Hazardous combustion products: harmful vapours
nitrogen oxides
fumes/smoke
carbon black

Specific extinguishing methods: The degree of risk is governed by the burning substance and the fire conditions. If exposed to fire, keep containers cool by spraying with water. Collect contaminated extinguishing water separately, do not allow to reach sewage or effluent systems. Contaminated extinguishing water must be disposed of in accordance with official regulations.

Special protective equipment for fire-fighters: Wear a self-contained breathing apparatus.

**6. ACCIDENTAL RELEASE MEASURES**

Personal precautions, protective equipment and emergency procedures: Do not breathe dust. Wear eye/face protection. Use personal protective clothing. Handle in accordance with good building materials hygiene and safety practice.

Environmental precautions: Contain contaminated water/firefighting water. Do not discharge into drains/surface waters/groundwater.

Methods and materials for containment and cleaning up: Avoid raising dust. Pick up with suitable appliance and dispose of. Dispose of absorbed material in accordance with regulations.

**7. HANDLING AND STORAGE**

Advice on protection against: Prevent electrostatic charge - sources of ignition should be
fire and explosion kept well clear - fire extinguishers should be kept handy. Keep away from sources of ignition - No smoking. Dust can form an explosive mixture with air. 

Advice on safe handling: Avoid dust formation. Wear suitable protective clothing and eye/face protection. Avoid inhalation of dusts/mists/vapours. Breathing must be protected when large quantities are de-canted without local exhaust ventilation.

Further information on storage conditions: Keep only in the original container in a cool, dry, well-ventilated place away from ignition sources, heat or flame. Protect from direct sunlight.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters
Contains no substances with occupational exposure limit values.

Personal protective equipment
Respiratory protection: Wear respiratory protection if ventilation is inadequate. Particle filter with low efficiency for solid particles (e.g. EN 143 or 149, Type P1or FFP1)

Hand protection
Remarks: impermeable gloves
Eye protection: Safety glasses with side-shields (frame goggles) (e.g. EN 166)
Skin and body protection: light protective clothing
Protective measures: Avoid inhalation of dusts. Wearing of closed work clothing is required additionally to the stated personal protection equipment. Avoid exposure - obtain special instructions before use. Handle in accordance with good building materials hygiene and safety practice.

Hygiene measures: When using, do not eat, drink or smoke. Hands and/or face should be washed before breaks and at the end of the shift. At the end of the shift the skin should be cleaned and skin-care agents applied. Gloves must be inspected regularly and prior to each use. Replace if necessary (e.g. pinhole leaks).

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: powder
Color: gray
Odor: odorless
pH: not applicable
Melting point: not applicable
Boiling point: not applicable The product is a non-volatile solid.
Flash point : No data available
Evaporation rate : The product is a non-volatile solid.
Flammability (solid, gas) : not flammable
Vapor pressure : not applicable
Relative vapor density : The product is a non-volatile solid.
Bulk density : approx. 500 kg/m3 (20 °C)
Solubility(ies)
   Water solubility : insoluble
Partition coefficient: n-octanol/water : No data available
Autoignition temperature : not applicable
Decomposition temperature : No decomposition if stored and handled as prescribed/indicated.
Viscosity
   Viscosity, dynamic : Not applicable
Explosive properties : Not explosive
   Not explosive
Oxidizing properties : not fire-propagating
Self-heating substances : No data available
Metal corrosion rate : No corrosive effect on metal.

10. STABILITY AND REACTIVITY

Reactivity : No hazardous reactions if stored and handled as prescribed/indicated.
Chemical stability : The product is stable if stored and handled as prescribed/indicated.
Possibility of hazardous reactions : The product is stable if stored and handled as prescribed/indicated.
Conditions to avoid
   Incompatible materials : See SDS section 7 - Handling and storage.
   : Strong acids
   : Strong bases
   : Strong oxidizing agents
   : Strong reducing agents
Hazardous decomposition products : No hazardous decomposition products if stored and handled as prescribed/indicated.
11. TOXICOLOGICAL INFORMATION

Acute toxicity
Not classified based on available information.

Skin corrosion/irritation
Not classified based on available information.

Serious eye damage/eye irritation
Not classified based on available information.

Respiratory or skin sensitization

Skin sensitization
Not classified based on available information.

Respiratory sensitization
Not classified based on available information.

Germ cell mutagenicity
Not classified based on available information.

Carcinogenicity
Not classified based on available information.

Reproductive toxicity
Not classified based on available information.

STOT-single exposure
Not classified based on available information.

STOT-repeated exposure
Not classified based on available information.

Aspiration toxicity
Not classified based on available information.

Further information

Product:
Remarks: Health injuries are not known or expected under normal use. The product has not been tested. The statements on toxicology have been derived from the properties of the individual components.

12. ECOLOGICAL INFORMATION

Ecotoxicity

Product:
Toxicity to fish
Remarks: No toxic effects occur within the range of solubility.

Ecotoxicology Assessment
Acute aquatic toxicity: This product has no known ecotoxicological effects.
Chronic aquatic toxicity: This product has no known ecotoxicological effects.

Persistence and degradability
No data available

Bioaccumulative potential
No data available

Mobility in soil
No data available

Other adverse effects
Product:
Additional ecological information: According to experience, the material has no harmful effect on the environment. Do not discharge product into the environment without control. Do not discharge substance/product into sewer system. The product has not been tested. The statements on ecotoxicology have been derived from products of a similar structure and composition.

13. DISPOSAL CONSIDERATIONS

Disposal methods
Waste from residues: Observe national and local legal requirements. Residues should be disposed of in the same manner as the substance/product.

Contaminated packaging: Contaminated packaging should be emptied as far as possible; then it can be passed on for recycling after being thoroughly cleaned.

14. TRANSPORT INFORMATION

International Regulations
UNRTDG
Not regulated as a dangerous good

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture
If other regulatory information applies that is not already provided elsewhere in this safety data sheet, then it is described in this subsection.
SAFETY DATA SHEET

MasterLife 80P

Version 1.0  Revision Date: 19.08.2020  SDS Number: 000000332430  Date of last issue: -  Date of first issue: 19.08.2020

16. OTHER INFORMATION

Further information
Other information: In addition to the information given in the safety data sheet we refer to the product specific 'Technical Information'.
