

MasterRoc MP 230 CLN

Agent for cleaning and preserving resin injection equipment.

Product description

MasterRoc MP 230 CLN is an organic based solvent, without water and particularly suitable for cleaning injection pumps, piping and other associated equipment, removing liquid resin. The anti-rust properties extend the functionality of the pumps. Compared with other cleaning agents, MasterRoc MP 230 CLN is not dangerous, with a flash point greater than 200°C.

Fields of application

- Removes liquid resin from injection equipment and pipes

- Preserve injection pumps, piping and other associated equipment
- Temperature of use: -10°C - + 150°C.

Packaging

MasterRoc MP 230 CLN is available in the following packs: 25 kg canister.

Storage

Store in the original packaging. Keep containers closed and dry. MasterRoc MP 230 CLN can be stored for 24 months.

Technical Information	
Color	Clear liquid
Density (20°C)	1.06 kg / lt
Viscosity (20°C)	120 mPa s
Pour point	< -15°C
Flash point (DIN 53213)	> 200°C

Application procedure

After the injection, pump the MasterRoc MP 230 CLN through the equipment until all the resin has been removed. Afterwards, recirculate the cleaning product, without resin residues, through the injection pump.

The injection pump can be stored with MasterRoc MP 230 CLN inside. In this way the pump remains clean and rust-free until the next use and prevents any blockage. Hardened material must be removed mechanically.

MasterRoc MP 230 CLN can be used with both one-component and two-component equipment.

Safety information

For information on the correct and safe use, transport, storage and disposal of the product, consult the most recent Safety Data Sheet
